australians are famous for our love of the coast although in many places this love has
caused serious and often irreversible impacts the sustainable management of our
society s many uses of the coast is complex and challenging while a wealth of
knowledge exists about the coast this is not always brought to bear on decision making
coastal management to date has had limited success and in some cases interventions
have made problems worse australia s coast has been shaped by severe events such
as cyclones and floods with climate change now increasing the number and intensity of
these hazards in addition our coastal populations are growing and with them our social
environmental and economic vulnerability to such hazards this book explores the
evolution of coastal management and provides critical insights into contemporary

~~experience and understanding of coastal management in australia it draws on contemporary theory and lessons from case examples to highlight the roles of research and community engagement in coastal management the book concludes with a chapter of recommendations which can help guide coastal management and research around the world~~
