la musique occidentale et en particulier la musique dite classique à l instar de la philosophie également occidentale est un élément essentiel d affirmation de la prétendue supériorité de l occident sur les autres parties du monde ce résultat étant obtenu en rejetant dans une extériorité une infériorité ou une spécificité radicales ce que l on pourrait dénommer en s inspirant de l appellation autrefois accolée aux sociétés exotiques les musiques sans écriture ces musiques orales et improvisées sont appropriées à la fois par l ethnomusicologie et les musiques du monde

le xxe siècle fut une période propice à l intégration des éléments musicaux et extra musicaux subsahariens dans la musique élitiste de l hémisphère nord le succès de la world music en témoigne mais l éclectisme qui caractérise ce mélange est lui le résultat d un long processus historique politique économique et socioculturel s appuyant sur une analyse musicologique et historique mais également anthropologique et ethnomusicologique cet ouvrage présente une grille de lecture des critères de contacts de confrontations et de convergences entre les deux cultures musicales par les approches systématique et comparative retraçant le parcours et l œuvre de ses principaux promoteurs illustré de nombreux exemples musicaux et planches photographiques d instruments souvent méconnus se révèle le rapport musical riche entre les deux continents fait d influences et d inspirations

all over africa an explosion in cultural productions of various genres is in evidence whether in relation to music song and dance drama poetry film documentaries photography cartoons fine arts novels and short stories essays and auto biography the continent is experiencing a robust outpouring of creative power that is as remarkable for its originality as its all round diversity beginning from the late 1970s and early 1980s the african continent has experienced the longest and deepest economic crises than at any other time since the period after the second world war interestingly however while practically every indicator of economic development was declining in nominal and or real terms for most aspects of the continent cultural productions were on the increase out of adversity the creative genius of the african produced cultural forms that at once spoke to crises and sought to transcend them the current climate of cultural pluralism that has been produced in no small part by globalization has not been accompanied by an adequate pluralism of ideas on what culture is and or should be nor informed by an equal claim to the production of the cultural packaged or not globalization has seen to movement and mixture contact and linkage interaction and exchange where cultural flows of capital people commodities images and ideologies have meant that the globe has become a space with new asymmetries for an increasing intertwinement of the lives of people and consequently of a greater blurring of normative definitions as well as a place for re definition imagined and real as this book contemporary african cultural productions has done researching into african culture and cultural productions that derive from it allows us among other things to enquire into definitions explore historical dimensions and interrogate the political dimensions to presentation and representation the book therefore offers us an intervention that goes beyond the normative literary and cultural studies main foci of race difference and identity notions which while important in themselves might without the necessary historicizing and interrogating result in a discourse that rather re inscribes the very patterns that necessitate writing against this book is an invaluable compendium to scholars researchers teachers students and others who specialize on different aspects of african culture and cultural productions as well as cultural centers and general readers
